

Culinary Arts

There's nothing like watching somebody bite into something and seeing the joy on their face when they're enjoying something that you prepared.

HACC is pretty much the best culinary school in Pennsylvania.

One of the most unique things about the culinary program specifically at HACC is our real life experiences.

What really drove me towards HACC was their cooperation with Bricco down the street.

We go to the Hilton.

I have so much more confidence since I started this program that I can attribute that solely to the instructors of this program.

We are being taught by great chefs.

We are accredited by the Accreditation Commission of American Culinary Federation Education Foundation.

All of our credits are transferrable.

We have a culinary arts and catering diploma, a culinary arts certificate, we also have a culinary arts associate degree.

For the baking and pastry program, we have a certificate.

Not everyone is looking for a full career, some of it is just a self- fulfillment.

HACC is hospitably YOURS. Proudly YOURS. Successfully YOURS.

Loyally YOURS.
